

## PATENT COOPERATION TREATY

PCT

**NOTIFICATION CONCERNING  
SUBMISSION OR TRANSMITTAL  
OF PRIORITY DOCUMENT**

(PCT Administrative Instructions, Section 411)

Date of mailing (day/month/year) 02 December 2004 (02.12.2004)
Applicant's or agent's file reference BLOcp226-119
International application No. PCT/IB2004/003352
International publication date (day/month/year) Not yet published
Applicant <b>INSTITUT PASTEUR et al</b>

From the INTERNATIONAL BUREAU

To:

CABINET ORES  
36 rue de St Pétersbourg  
F-75008 Paris  
France

<b>IMPORTANT NOTIFICATION</b>			
International filing date (day/month/year) 24 September 2004 (24.09.2004)	Priority date (day/month/year) 24 September 2003 (24.09.2003)	<ol style="list-style-type: none"> <li>By means of this Form, which replaces any previously issued notification concerning submission or transmittal of priority documents, the applicant is hereby notified of the date of receipt by the International Bureau of the priority document(s) relating to all earlier application(s) whose priority is claimed. Unless otherwise indicated by the letters "NR", in the right-hand column or by an asterisk appearing next to a date of receipt, the priority document concerned was submitted or transmitted to the International Bureau in compliance with Rule 17.1(a) or (b).</li> <li>(If applicable) The letters "NR" appearing in the right-hand column denote a priority document which, <u>on the date of mailing of this Form, had not yet been received by the International Bureau under Rule 17.1(a) or (b)</u>. Where, under Rule 17.1(a), the priority document must be submitted by the applicant to the receiving Office or the International Bureau, but the applicant fails to submit the priority document within the applicable time limit under that Rule, <u>the attention of the applicant is directed to Rule 17.1(c) which provides that no designated Office may disregard the priority claim concerned before giving the applicant an opportunity, upon entry into the national phase, to furnish the priority document within a time limit which is reasonable under the circumstances</u>.</li> <li>(If applicable) An asterisk(*) appearing next to a date of receipt, in the right-hand column, denotes a priority document submitted or transmitted to the International Bureau but not in compliance with Rule 17.1(a) or (b) (the priority document was received after the time limit prescribed in Rule 17.1(a) or the request to prepare and transmit the priority document was submitted to the receiving Office after the applicable time limit under Rule 17.1(b)). Even though the priority document was not furnished in compliance with Rule 17.1(a) or (b), the International Bureau will nevertheless transmit a copy of the document to the designated Offices, for their consideration. In case such a copy is not accepted by the designated Office as priority document, Rule 17.1(c) provides that no designated Office may disregard the priority claim concerned before giving the applicant an opportunity, upon entry into the national phase, to furnish the priority document within a time limit which is reasonable under the circumstances.</li> </ol>

## INTERNATIONAL SEARCH REPORT

International Application No  
PCT/IB2004/003352

A. CLASSIFICATION OF SUBJECT MATTER  
IPC 7 A61K38/17

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)  
IPC 7 A61K C12N

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, WPI Data, PAJ, BIOSIS, EMBASE, Sequence Search

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	<p>TEGETHOFF S ET AL: "Tetrameric oligomerization of IkappaB kinase gamma (IKKgamma) is obligatory for IKK complex activity and NF-kappaB activation." MOLECULAR AND CELLULAR BIOLOGY, vol. 23, no. 6, March 2003 (2003-03), pages 2029-2041, XP002314348 ISSN: 0270-7306 abstract, results; discussion;</p> <p>-----</p> <p>-/-</p>	1-8

Further documents are listed in the continuation of box C.

Patent family members are listed in annex.

\* Special categories of cited documents :

- \*A\* document defining the general state of the art which is not considered to be of particular relevance
- \*E\* earlier document but published on or after the international filing date
- \*L\* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- \*O\* document referring to an oral disclosure, use, exhibition or other means
- \*P\* document published prior to the international filing date but later than the priority date claimed

\*T\* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

\*X\* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

\*Y\* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.

\*&\* document member of the same patent family

Date of the actual completion of the international search

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-32 (all partially)

a purified polynucleotide which encodes a polypeptide that inhibits the NFkappaB signaling pathway, said polypeptide comprising an amino acid sequence selected from SEQ ID Nos. 2, 3, 13 or 14, i.e. comprising the CC2 domain of NEMO, as well as subject-matter related thereto;

---

2. claims: 1-32 (all partially)

a purified polynucleotide which encodes a polypeptide that inhibits the NFkappaB signaling pathway, said polypeptide comprising an amino acid sequence selected from SEQ ID Nos. 6, 7, 15 or 16, i.e. comprising the LZ domain of NEMO, as well as subject-matter related thereto;

---

3. claims: 1-32 (all partially)

a purified polynucleotide which encodes a polypeptide that inhibits the NFkappaB signaling pathway, said polypeptide comprising an amino acid sequence selected from SEQ ID Nos. 30-39, i.e. comprising the mutated NEMO-like motif (NLM) domain of NEMO, as well as subject-matter related thereto;

---

4. claims: 33-45

a method of identifying polypeptides that modulate oligomerization of NEMO comprising a) identifying a candidate polypeptide sequence, b) linking said candidate polypeptide sequence to a polypeptide having a high transduction potential via a spacer sequence, c) contacting a cell culture with the polypeptide fusion construct, d) monitoring the activity of the NFkappaB signaling pathway, e) determining the relative inhibition by said polypeptide fusion construct and f) correlating relative inhibition by said polypeptide fusion construct to NEMO oligomerization as well as subject-matter related thereto;

---

# INTERNATIONAL SEARCH REPORT

• International application No.  
PCT/IB2004/003352

## Box II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1.  Claims Nos.:  
because they relate to subject matter not required to be searched by this Authority, namely:
  
2.  Claims Nos.:  
because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:
  
3.  Claims Nos.:  
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

## Box III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

see additional sheet

1.  As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.
  
2.  As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
  
3.  As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:
  
4.  No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

- The additional search fees were accompanied by the applicant's protest.
- No protest accompanied the payment of additional search fees.
